

## A few words about Nigel Francis

Nigel Francis is on a mission to help build Character in our classrooms. Currently, Nigel is a High School Educator in Brampton, Ontario with an extensive educational background that includes Honours Degree in both History and English and a Masters Degree in Education. As Nigel has been an Educator for close to a decade, he understands that this profession offers both unique opportunities and distinct challenges. Teachers have the incredible opportunity to educate young minds, but they also have to deal with the ever present obstacle of challenging behaviour which can include: truancy, disrespect for authority, and a lack of commitment to both education and personal growth. As these issues can clearly impact the overall success that students' achieve in the classroom, Nigel wants to help to promote change. In his debut title, *Teaching the Unteachable Student*, Nigel has developed a series of character building strategies to help educators reverse challenging behaviours in the classroom. These practical strategies will help Educators to further develop what Nigel refers to as the Six Key Elements of Character which include:

Respect,  
Responsibility,  
Perseverance,  
Caring,  
Citizenship, and  
Trustworthiness.

As Educators begin to use these strategies in the classroom, they will notice a decrease in inappropriate behaviours and an increase in their students' overall academic performance. *Teaching the Unteachable Student* is workshop that includes discussions on topics such Character Education, Differentiated Instruction, and Classroom Management. This workshop is sure to be informative, entertaining, and will help Educators once again to feel empowered in their classrooms. If you would like to book Nigel for a workshop presentation or for a motivational speaking engagement you can reach him at [info@franciseduservices.ca](mailto:info@franciseduservices.ca) or at 416 268 1848.
